THE MAN IN THE GLASS

When you get what you want in your struggle for self,
and the world makes you — king for a day,
Just go to a mirror and look at yourself and see what that man has to say.

For it isn't your father or mother or wife
who's judgment upon you must pass;
The fellow who's verdict counts most in your life,
Is the one staring back from the glass.

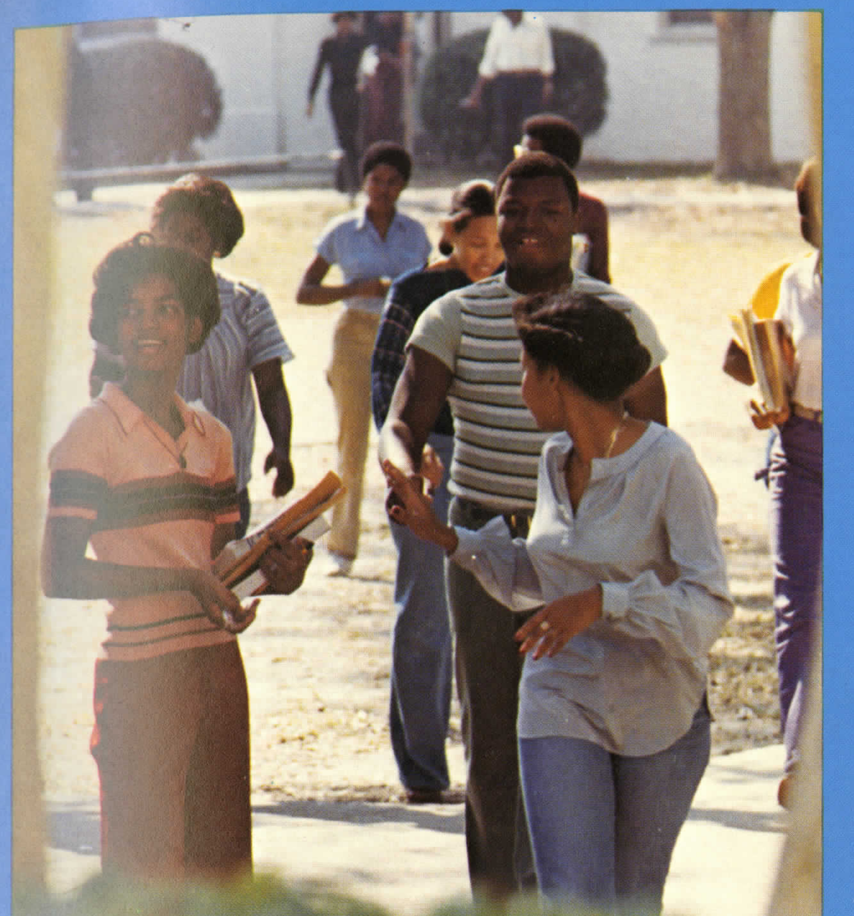

Some people may think you a straight shooting chum,
And call you a wonderful guy,
But the man in the glass says you're only a bum,
If you can't look him straight in the eye.

He's the fellow to please, never mind all the rest,
For he's with you clean up to the end.
And you've passed your most dangerous, difficult test
If the man in the glass is your friend.

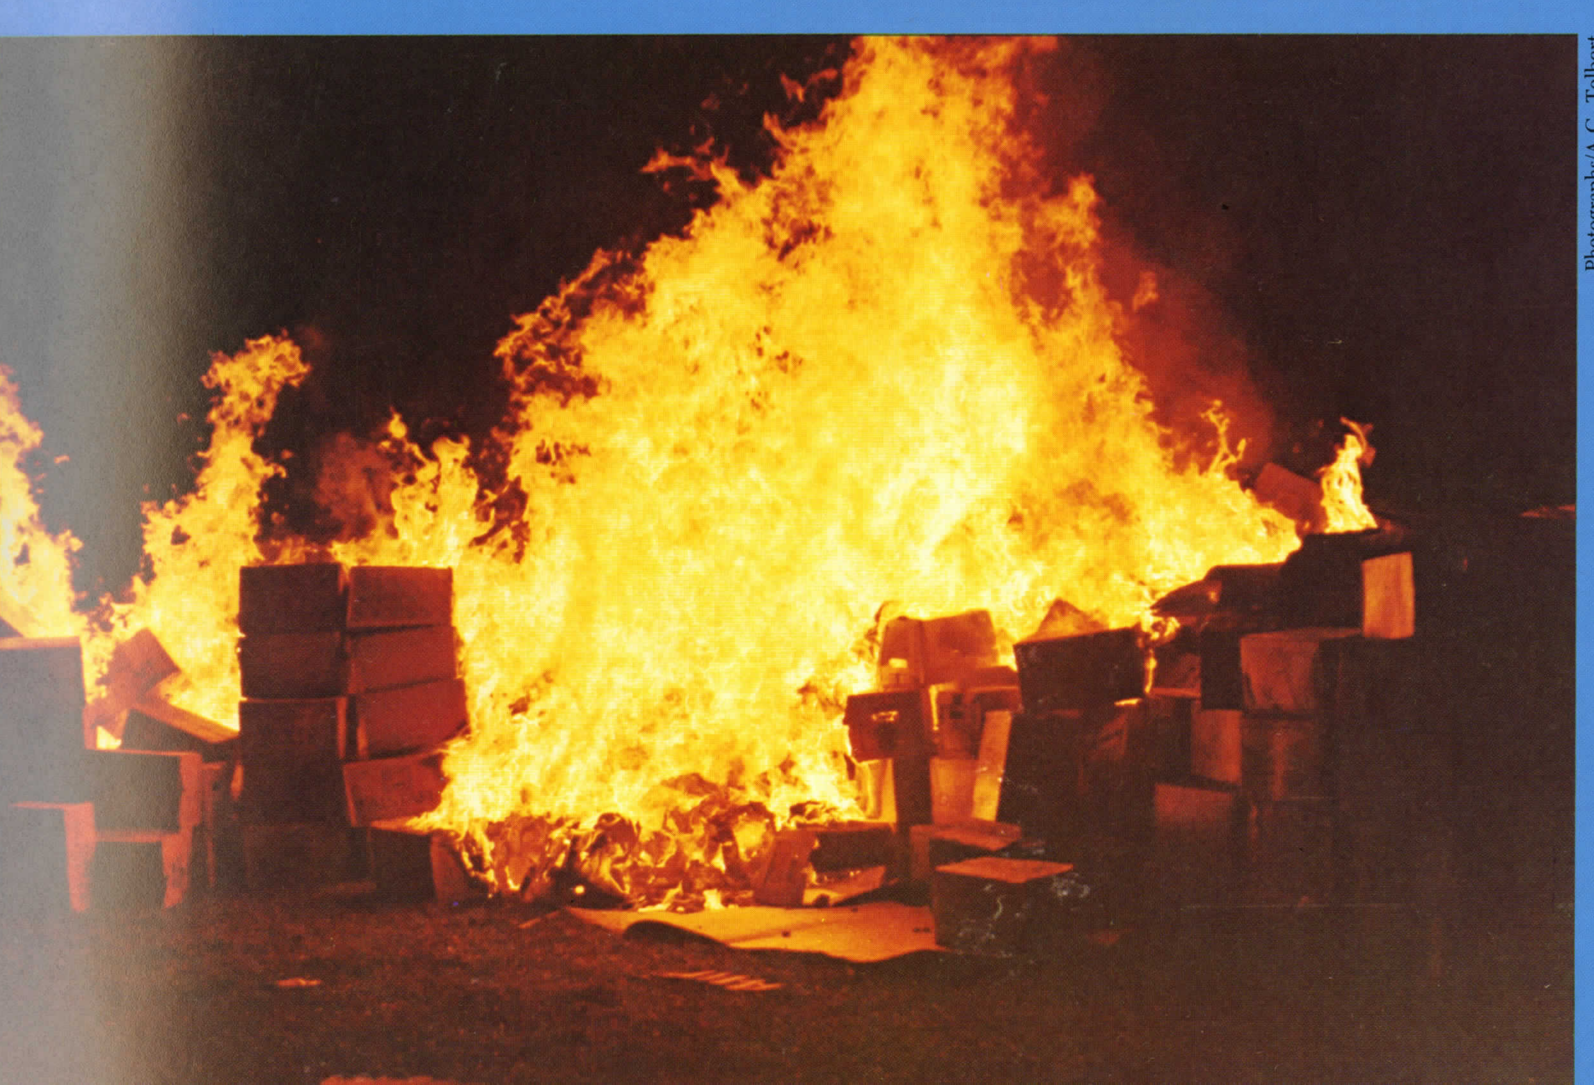

You may fool the whole world down the pathway of years,
and get pats on the back as you pass,
But your final reward will be heartaches and tears,
If you've cheated the man in the glass.

THROUGH THE YEARS

Dillard's roots originated June 12, 1869 as Straight University. Our University today, is the product of a merger between the renamed Straight College and New Orleans University on the day of June 6, 1930. Dillard University was named in the honor of James Hardy Dillard who served as president of the Jeanes Foundation for Negro Rural Schools.

E-D-U-C-A-T-I-O-N

The curriculum in the Division of Education is competency-based to allow maximum growth for each individual student. This is done by carefully developing behavioral objectives and/or competencies that provide the requisite skills for cognitive, affective, and psychomotor learning and growth.

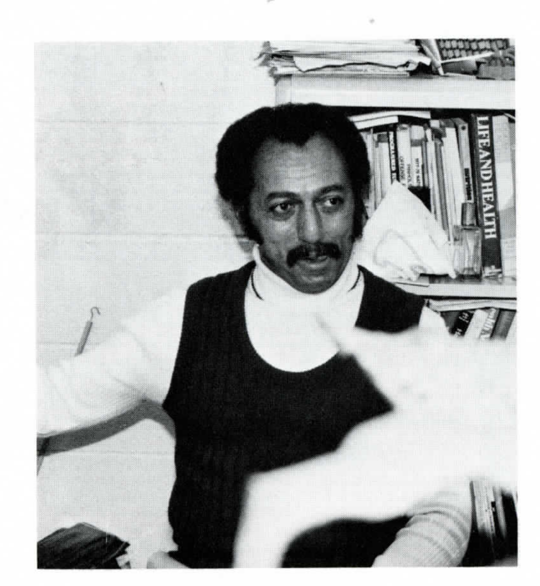

The Division of Education offers three areas of concentration: Early Childhood, Upper Elementary and Special Education. Students in all three areas of concentration gain experience through observation and practice teaching in selected qualified elementary schools.

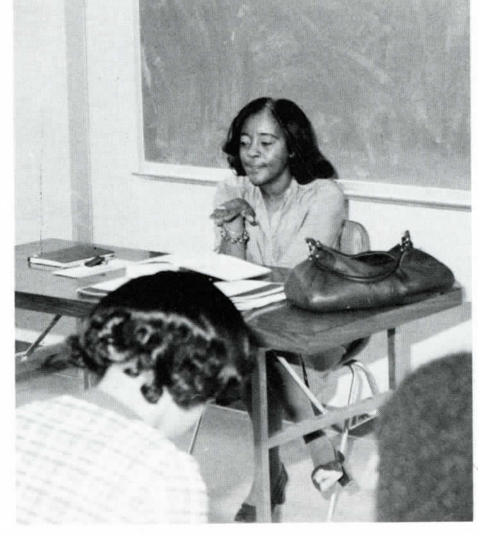

Dr. William Webster Clem Jr.
Chairperson, Division of Education

Dr. Keith Wismar
Associate Professor of Psychology

SECONDARY EDUCATION

A four year sequence that provides opportunity for personal, academic and professional development that keeps pace with advancements in the field. The secondary education student develops his or her talent in a particular field and learns to share that talent. There are many programs to choose from in the field of Humanities, Mathematics, Natural Sciences, and Social Sciences.

HEALTH and PHYSICAL EDUCATION

Health and P.E. courses are based on the concept that physical education is considered both a science and an art. With practice and patience students develop skills and understanding in the areas of physical well-being, recreation and safety.

PSYCHOLOGY

"Understanding and Predicting Human Behavior" The above phrase typifies the goal of psychology in general. Some graduate work is mandatory for a successful career in psychology. Emphasis is placed not only on understanding psychology theories, but also upon applying them to daily life.

H-U-M-A-N-I-T-I-E-S

The Division of Humanities deals with cultural life as expressed in literature and the arts. Major instructional fields in the division are:

ART

The freshman student may be dismayed at first when he finds his way to the basement of Rosenwald Hall, however, before long excitement rises as paintings are created as a means of expressing oneself on a plain piece of paper. When art students graduate, they are glad that professionalism was demanded of them. They can step out into a confident and artistic future.

ENGLISH

The aim of the English Department is to enable the student to know more about himself and his world, to develop his imagination, to learn to appreciate literature for its aesthetic and humanistic values, to create a new world of personal enjoyment and lastly to express himself more fluently.

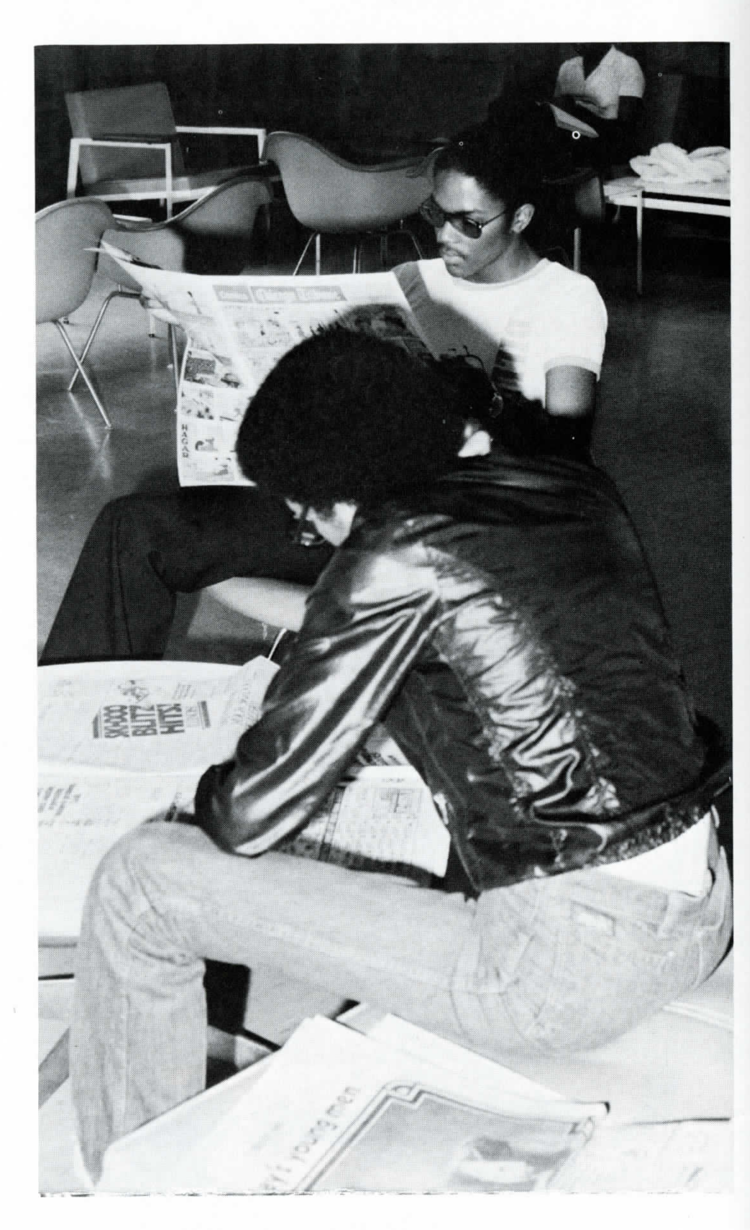

This area offers courses in the fields of the English language, writing, and literature, American Literature, Afro-American Literature and Comparative Literature.

DRAMA & SPEECH

Drama and Speech is a program which offers courses in acting, oral interpretation and public speaking which helps to sharpen the skills one needs to command the attention, and respect of an audience.

FOREIGN LANGUAGES

The Foreign Language Department offers courses in three languages French, German and Spanish. The area prepares students for graduate work and teaching at the secondary level for a variety of interesting careers as counselors or with organizations dealing with foreign trade.

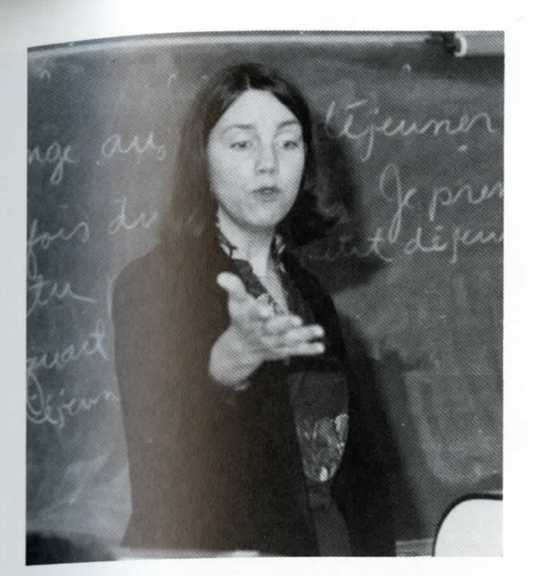

Dr. Floyd L. Sandle
Chairperson, Division of the Humanities

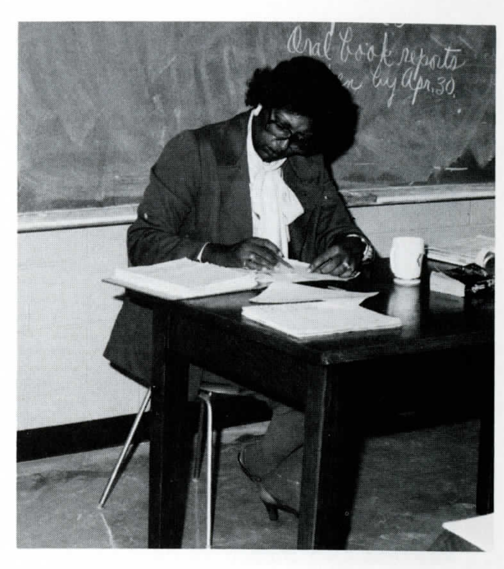

Mrs. Jackie H. Battiste
Program Coordinator Special Services

Mrs. Margaret H. Eskew
Instructor of German & French

Mrs. Gloria Firmin
Instructor of Reading

Mrs. Helen Green
Instructor of Reading

MUSIC

The music program is a foundation for further study as well as musical sensitivity through training in classrooms, Glee Clubs, Choir and Band participation, a clinical and actual performance experience. The result is professional musicians, teachers, and singers.

PHILOSOPHY AND RELIGION

Philosophy and Religion evaluate the ideas that have inspired man throughout history. This provides a chance to discover who one is, what one might become, and the values that make life worth while. Philosophy and Religion help one obtain skills useful in life such as: analysis of arguments, ability to express oneself clearly on value issues and ability to view the present and face the future. Philosophy and Religion are useful in many professions — Law, Business, Medicine, Ministry, and Social work. It also provides students with a base for a more meaningful out look on religion in his or her everyday life.

Mr. Jacob Udinsky
(Retiring) Instructor of English

Mr. Vernon Winslow
Associate Professor of Art

N-A-T-U-R-A-L S-C-I-E-N-C-E-S

The Division of Natural Sciences is a dynamic, academic component of Dillard University which strives to offer a broad spectrum of courses and experiences to students. Course openings are designed to support training and preparation for the pursuit of majors in the Natural Sciences as well as in other disciplines; students who seek to satisfy basic science requirements for entering the clinical areas of nursing and students who major in one of the natural sciences or mathematics. The Division offers majors in biology, chemistry, mathematics, and physics and has excellent programs in pre-dentistry, pre-engineering, pre-medicine, pre-optometry, and pre-veterinary medicine.

The Division is housed in a modern, air-conditioned building with a variety of modern scientific equipment. More than 125 of our graduates have gone on to earn doctorate degrees in various fields of the natural sciences, mathematics and such professions as medicine, denistry, veterinary medicine, and optometry. We currently have 22 graduates enrolled in medical and dental schools, throughout the U.S. Many of Dillard's natural sciences graduates hold very important professional positions such as the following: President or Vice President of Colleges; executives in federal and private agencies; research scientists, mathematics chairperson of division, and departments, practicing physicians, dentists, veterinarians, optometrists, and a variety of other significant positions. The Media Center is a very important asset to the Natural Science building. It is readily available to students and faculty for use as an instructional, homework and research tool.

BIOLOGY

By exploring the fascinating world of living beings from simple micro-organisms to complex organic systems in mammals, the biology student prepares for a variety of career choices: medicine, dentistry, veterinary science, research education, etc.

Besides forwarding the careers of its own majors, the area also serves students majoring in other sciences and broadens the background of liberal arts students.

CHEMISTRY

This program is designed to prepare students to be professional chemists or for industrial medical enviromental careers as well as for graduate school.

MATHEMATICS

The math program provides basic mathematical instruction for all students; it also offers an indepth program to those who are preparing for careers in mathematics, various levels of teaching or math-related fields.

PHYSICS/PRE-ENGINEERING

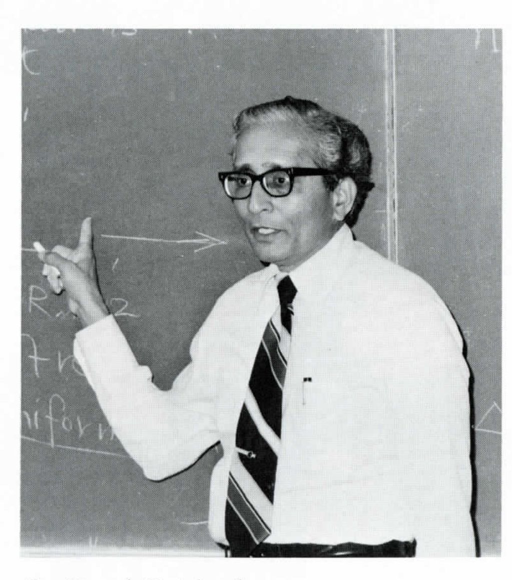

This program prepares individuals for the future. The curriculum is demanding — mathematics, physics, chemistry, and liberal arts courses — but it helps students to assume leadership roles. The students enter a three-year program, after which they transfer to an approved engineering school for two years. A physics or engineering degree opens the door to careers in medicine, law, and engineering.

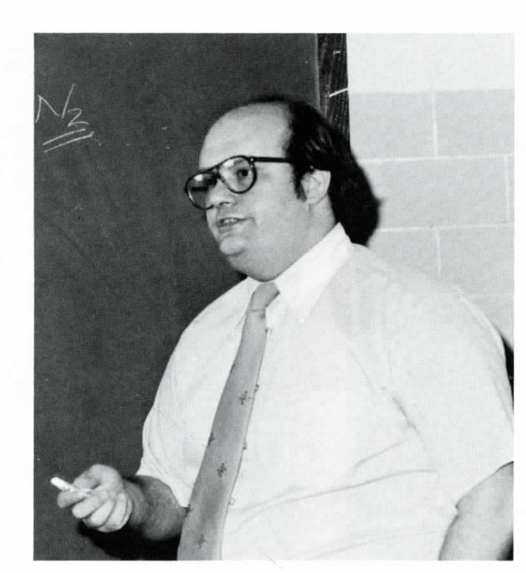

Dr. Joyce M. Verrett
Chairperson, Division of the Natural Sciences

Ms. Barbara Bell
Instructor of Biology

Mr. John Wilson
Instructor of Biology

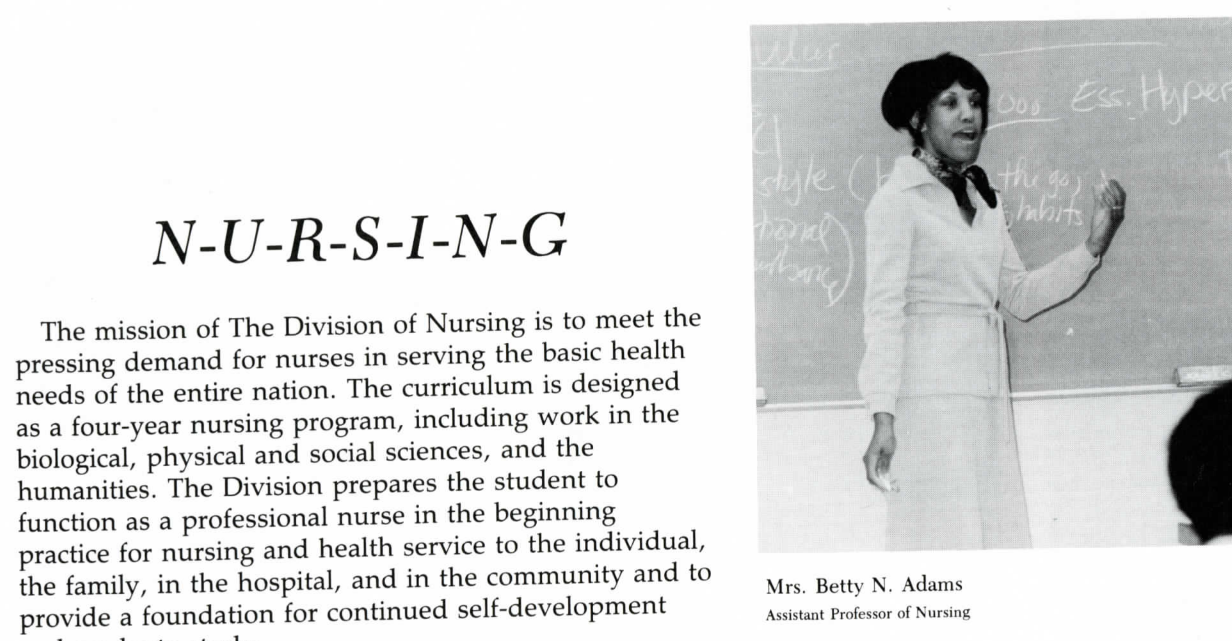

Mr. Lawrence Williams
Assistant Professor of Biology

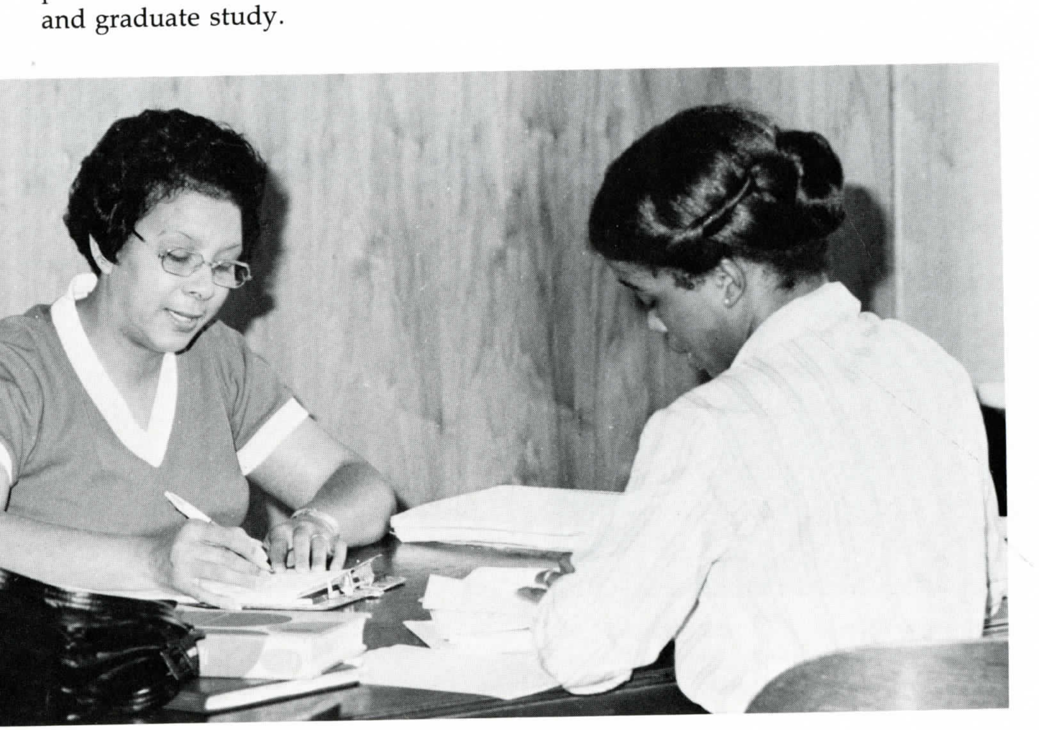

Mrs. Laura J. Goods
Associate Professor of Nursing

N-U-R-S-I-N-G

The mission of The Division of Nursing is to meet the pressing demand for nurses in serving the basic health needs of the entire nation. The curriculum is designed as a four-year nursing program, including work in the biological, physical and social sciences, and the humanities. The Division prepares the student to function as a professional nurse in the beginning practice for nursing and health service to the individual, the family, in the hospital, and in the community and to provide a foundation for continued self-development and graduate study.

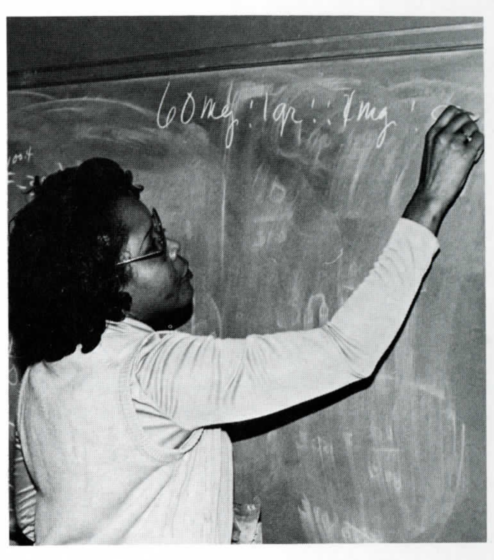

Mrs. Betty N. Adams
Assistant Professor of Nursing

Ms. Alma Evans

Clinical Instructor of Nursing

Mrs. Marquerite Rucker
Associate Professor of Nursing

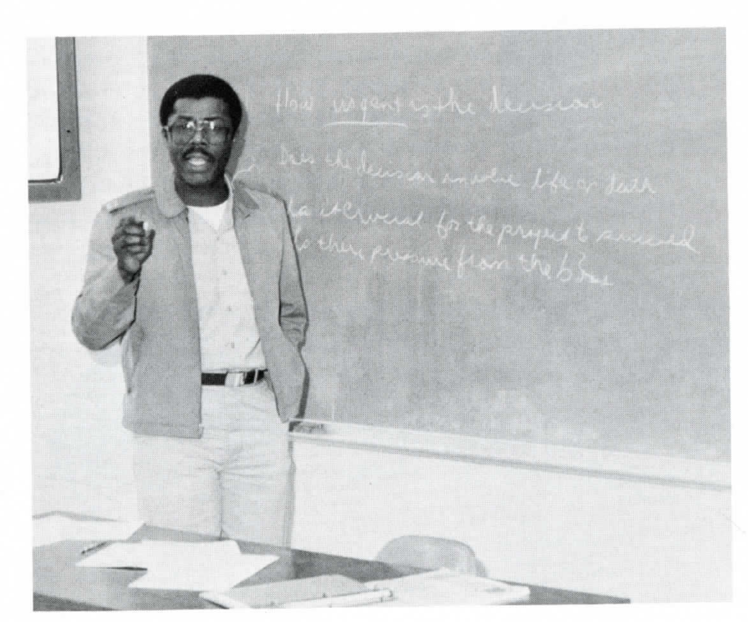

Mrs. Corentheis P. Simon
Instructor of Nursing

R-O-T-C

The Reserve Officers Training Corps (ROTC) at Dillard University is dedicated to the education of men and women for leadership roles in the community. The ROTC program is open to anyone in virtually any academic major. Elective academic credit given to ROTC students offer two-year and four-year programs to full time students. Upon successful completion of the ROTC program and reception of an academic degree from Dillard, the ROTC graduate is commissioned as a second lieutenant in the U.S. Army. Army ROTC scholarships are available to students enrolled in the ROTC program.

S-O-C-I-A-L S-C-I-E-N-C-E-S

In the Division of Social Sciences, courses are offered in three areas of concentration: Economics and Business Administration, History and Government, Sociology and Anthopology and Social Welfare.

The division's general objectives are:

1) to assist the students in achieving the neccessary knowledge for personal social and vocational development.

2) to provide cultural background for the student whose major interests lie in other divisions.

3) to help students develop the necessary tools of thought, drawing on both science and experience, to enable him to arrive at valid and usable judgements.

SOCIOLOGY AND ANTHOPOLOGY

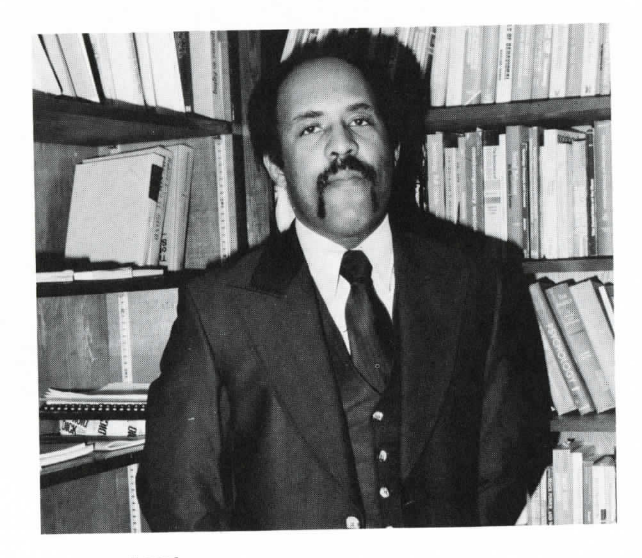

The courses in Sociology & Anthopology give a broad over view in the principal areas of Sociology & Anthopology to prepare students to enter directly into the Social Service occupations or for graduate work.

ECONOMICS & BUSINESS ADMINISTRATION

The Business Administration area's main objective is to further advance our young men and women in the business world, by broadening their intellect, social responsibility, and progessional efficiency in the wide fields of business, government, leaderships and services.

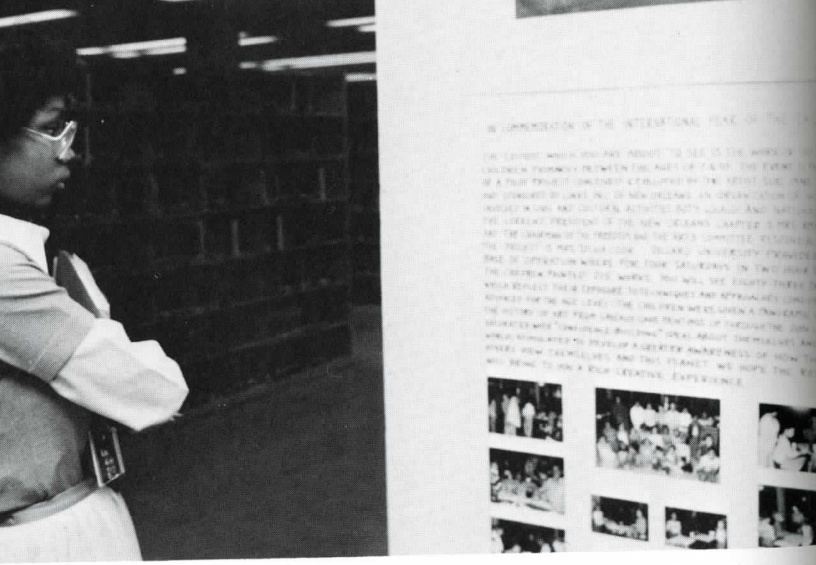

HISTORY AND GOVERNMENT

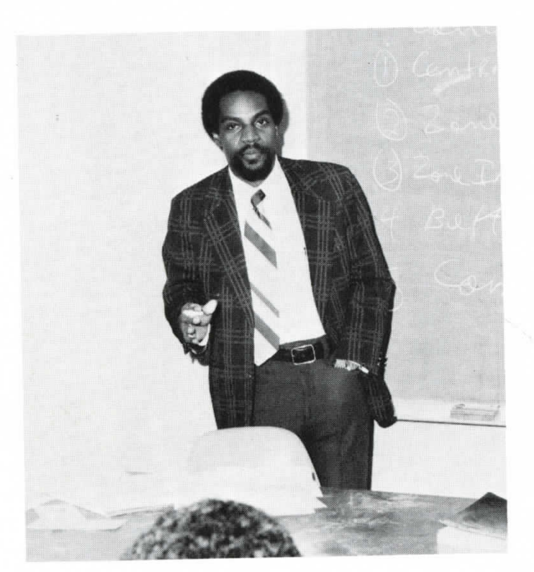

The History and Government courses are devoted to the humanistic study of man's past. It provides students who major in history and government with a variety of career choices including the teaching of history on both college and secondary or elementary school levels, entering government service or law.

Anguish —

and organized protests against the war in Vietnam.

President Butler Guides Dillard During 1970 —

On July 16, 1969, as the astronauts landed on the moon, Dillard University also took a step forward as Dr. Broadus N. Butler was elected President by the Board of Trustees. Dr. Butler did his undergraduate studies at Talladega College in philosophy and he received his M.A. and Ph.D. degrees from the University of Michigan in that field. He is married to Mrs. Lillian Rutherford Butler and is the father of two children, Bruce, a Dillard freshman, and Janet.

At the time of his election he was Dean of the College of Arts and Sciences at Texas Southern University. Dr. Butler also has professional experience at St. Augustine's College, Talladega College, Wayne State University and the U. S. Office of Education, where he served as Special Assistant to the Associate Commissioner for Higher Education.

A congenial administrator, Dr. Butler was an immediate hit with the student body, especially since he is from Mobile, Ala. like a large portion of campus students. We look forward to a long and profitable association with our new president.

Dr. Butler is congratulated by Dr. A. W. Dent, the outgoing president.

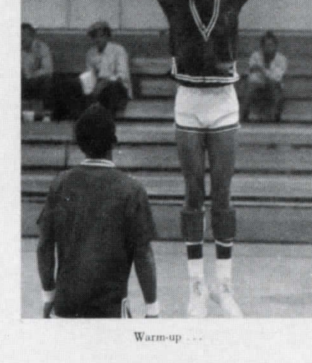

THE YEAR OF THE BLUE DEVIL—

Facing one of the toughest schedules in recent history, the 1969-70 Blue Devils emerged as a basketball power on a national scale. Defeating such clubs as Southern, Alcorn and Tennessee State is certainly a source of pride to Dillard fans.

Sparked by center George Johnson, the team's MVP, Dillard's cagers rolled up an impressive record for the season and they were regarded by some as the best team in the area.

Of course, there were dim points such as the disastrous trip to Mississippi consisting of the disappointing loss to Tougaloo, forcing the Devils to share the Gulf Coast crown, and the loss to Jackson State, the only team able to beat the Blue Devils twice.

THE TO AND FROM CAMPUS LIFE

There are two kinds of off campus students; there are those daring Dillardites in those dragging P.S. forty seaters and those who are fortunate, cruising through the front gate only to battle for a parking space and unfortunatly end up twenty minutes late for their 8:00 am class.

A.G. Tolbert

THE ON AND AROUND CAMPUS LIFE

The 1980 year for on campus students was full of unexpected occurrences. Housing was the first of major adjustments that one had to make. Dillard's dorms were so over crowded, one could liken the situation to an army barrack. To reflect on meals served during the first semester still nauseates many.

If these conditions were nonexistent then what would college be like without them? However, we did overcome many of the problems and learned to make adjustments. The housing problem improved slightly and the meals improved tremendously.

??

LIVIN' FAT

A poor but religious family suddenly comes into $10,000 after their oldest child, David Lee who works at a bank, finds the money robbers dropped during a bank robbery. The family fights and prays among itself, trying to decide whether to keep the money or return it to the bank. While they are deciding, David Lee and his friend, Boo, decide to keep the money regardless, so they hide it in two old pillows, on the living room sofa. Afterwards, Momma 'just happens' to go out and buy new Pillows, instructing Candy, her youngest child, to throw the old pillows in the incenerator on her way out to play. Unaware that the money is in the pillows, Candy follows instructions.

A.G. Tolbert

SIMPLY HEAVENLY

This play by Langston Hughes, based on his novel about Jesse B. Semple, a Joe Doakes Harlemite, captures the color and the humor and poetry of these neighbors-to-the-North as no outlander could imitate. This is the story of the New York Negro written from the inside out; it is a happy and exciting show. There is a mood and a temper about this show that is unique.

The characters in *SIMPLY HEAVENLY* are, on the whole, ordinary, hard-working, lower-income bracket Harlemites. Paddy's Bar is like a neighborhood club and most of its patrons are not drunkards or bums. Their small Kitchenette rooms or overcrowded apartments cause them to seek the church as a social center, or the poolhall, or dancehall. These talkative ones seek the bar.

The Future Dillardites

BEN HOOKS

"Go Tell It . . . Ben Hooks Reports" is an inspirational, informational look at black men and women who are making positive changes in business, politics, education and the arts with their talents and perceptions. The six-part series, produced by Post Newsweek Programs in conjunction with WDIV/Detroit, was taped on location throughout the U.S. and is currently being syndicated in 61 markets. Dillard University was featured in Program Five; "A Discussion of the Fight for Survival that Black Colleges Are Presently Waging."

Photographs/A.G. Tolbert

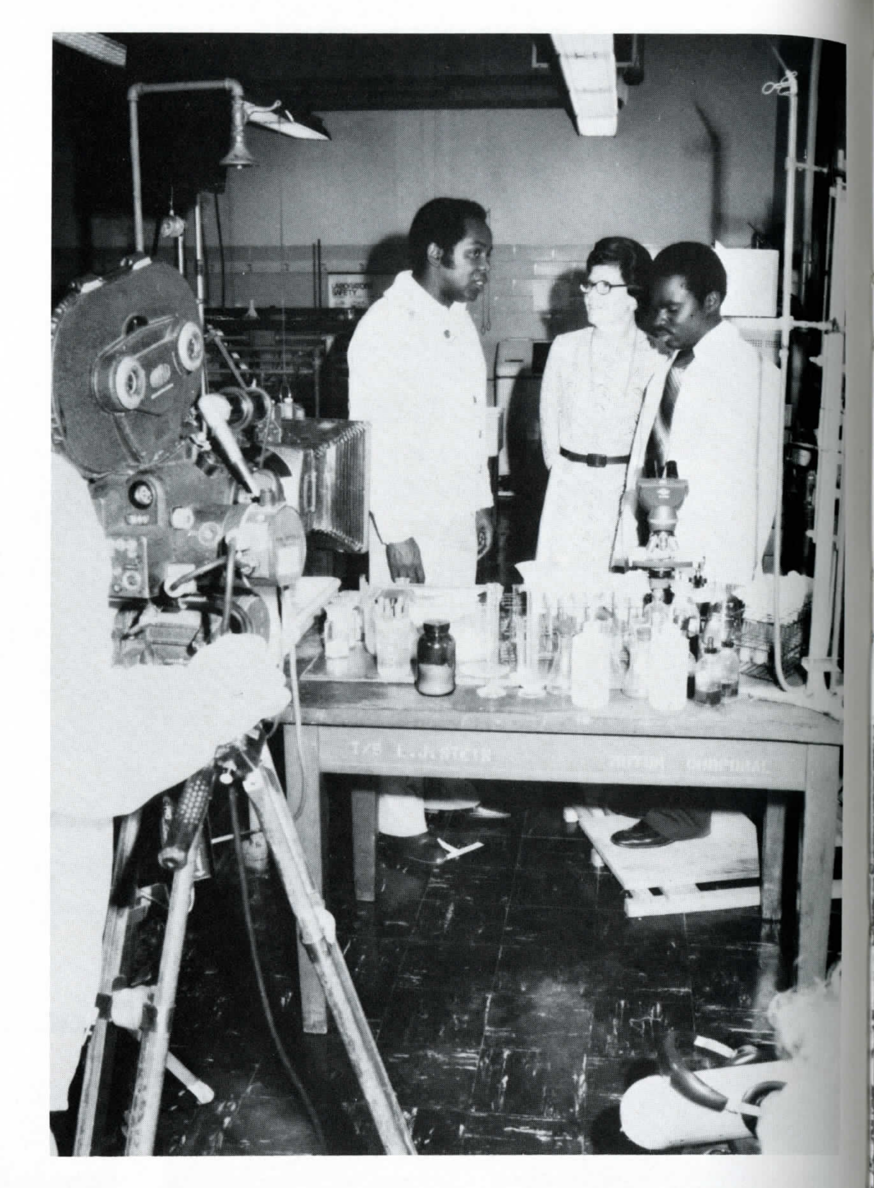

Photographs A.G. Tolbert

LOU RAWLS

Lou Rawls and a film crew appeared on Dillard's campus in November. The purpose for such a visit? "The Lou Rawls Parade of Stars", a three-hour TV special to benefit the United Negro College Fund. The fund-raising telethon began airing in major cities during April.

Here at Dillard the film crew centered their attention on a student, Bernard Singleton who grew up in a low-rent housing project and beat the odds of not surviving or having the opportunity of higher education. The UNCF stresses, "A Mind is a Terrible Thing to Waste."

MARDI GRAS

Truly this traditional New Orleans pagan celebration was the most successful of all times. Police strikes canceled parades last year. But it seems that persons tried to make up for the revelry missed due to last year's cancellation of Mardi Gras in the New Orleans downtown area.

WOMEN'S BASKETBALL

Striving for a winning season the Devilettes found they had to meet stiff competition. The squad was comprised mainly of freshmen and sophomores, therefore, their youth and inexperience led to a 6-18 season record. Facing well-established teams, the girls still showed that "nothing is gained without enthusiasm" and came through with impressive wins over Florida A&M University 84-80, an overtime victory over the University of New Orleans 86-76 and a 82-58 bombing of Delgado College.

Leading the way in the scoring department for the Devilettes was Delreese James a 5'9 forward freshman from New Orleans, Louisiana with an 11.4 per game average. Second was Adrienne Buggage, 6'0 center/forward sophomore averaging 9.7 per game and third was freshman Toni Gay, 5'6 guard averaging 9.4 points per game. Toni also led the team in assists with a total of 77 followed by Felicia Smoot with 75 and Ruslin Rabsatt with 53. Felicia holds the lifetime record for assists with 188. Adrienne Buggage took rebounding honors with 168 rebounds, second was Cynthia Poindexter with 130 and third was Sandra Gilyard with 121 rebounds. Rabsatt led the team in steals with 39, followed by Smoot and Gay with 34.

CHEERLEADERS

The spirit of Dillard University was shown by its cheerleaders. The Ladies painted and posted numerous signs throughout the University during the basketball season. From this years try-outs, Dillard was very pleased to have one of the best cheerleading squads to come along.

NAIA DISTRICT CHAMPS

Blue Devil basketball enjoyed one of its finest seasons as head Coach John O. Brown guided his squad to a 19-12 record and their first NAIA District 30 championship.

The main task this season was getting back into the winning circle after three consecutive losing ones.

The men opened the season competing in the Alabama State Tournament, turning back William Carey College and Miles College, before bowing to the host and champion Alabama State 86-79 bringing home the second place trophy.

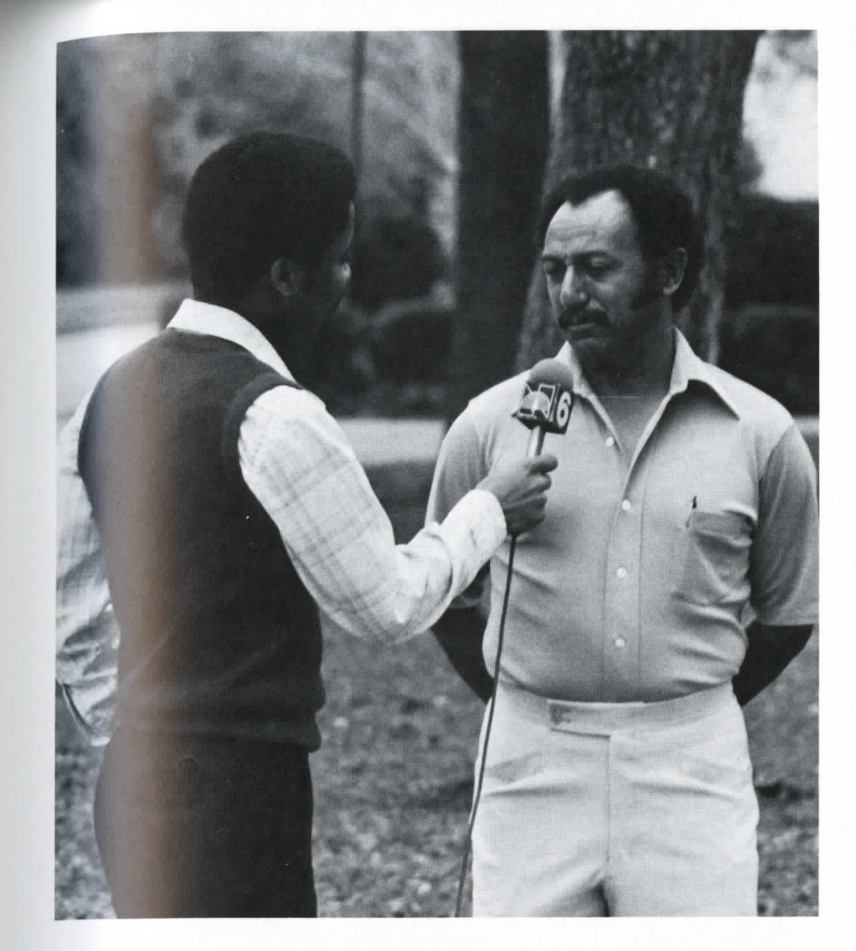

Highlights of the season were gaining revenge over arch-rival Xavier University of New Orleans in the barn 91-87, an overtime victory over Tougaloo College 61-57 and defeating Louisiana College on its home court 56-53 ending a 31 game home court winning streak.

The Blue Devils won the NAIA District 30 championship getting a spot in the first round, then defeating Rust College 59-51 and the host, Louisiana College, to win the championship and advance to the National Tournament at Kansas City, Missouri. The season ended with the meeting of Marymount College 99-88 in overtime.

Charles Hightower, 6'6 center/forward senior was the leading scorer for the Blue Devils with a 27.7 per game scorer average. Reginald Sanders, 6-4 forward senior was second, averaging 12.3 points a game and senior Allison Farve a 5'11 guard was third with an 11 point scoring average. Allison also led the team in assists with 193 for a 6.2 per game average. Darrell Spriggs led the team in block shots with 41. Hightower led the team in the rebounding department averaging 12.1 per game, followed by Sanders and Spriggs averaging 6.7 and 6.6 respectively.

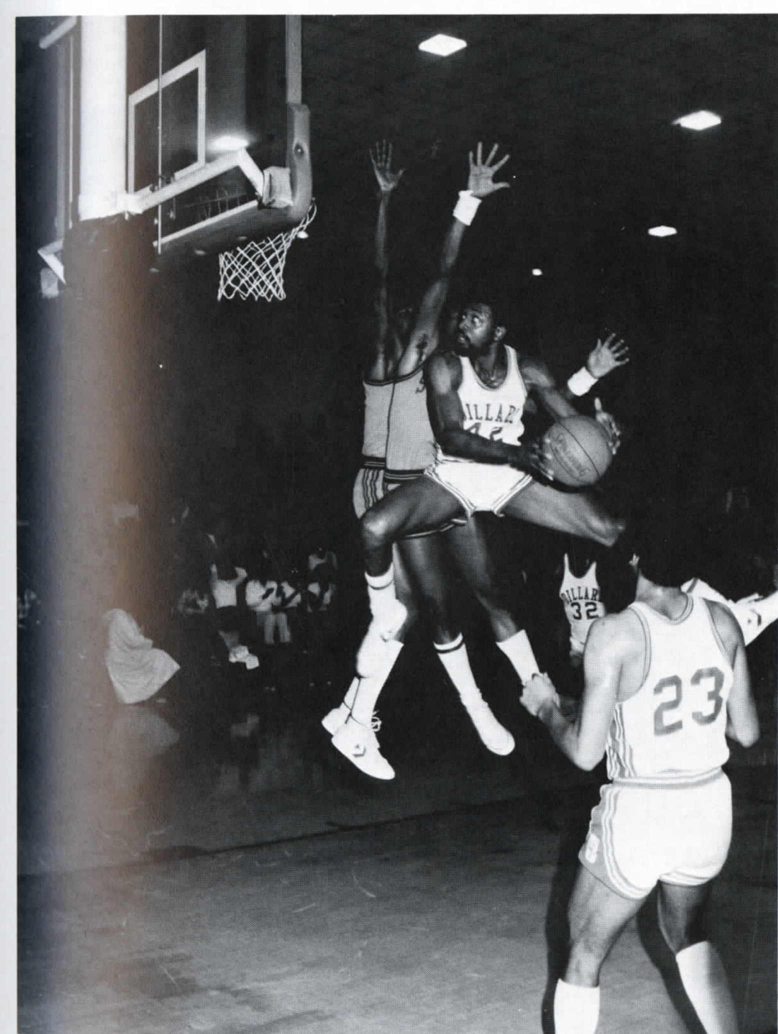

Row One: Robert Green, William Massey, John Dupont, James Haskins, Michael Carter, Row Two: Assistant Coach Mr. Walter Tillman, William McIntosh, Alex Austin, Allison Farve, Michael Thompson, Head Coach John O Brown, Row Three: Charles Hightower, Reginald Sanders, Larry Curry, Robert Tyus, Wilbert Washington, Back Row: Kelvin Phillips, James Lofton, David Hutchinson, Donald Troutman, Joe Billingsley, Darrell Spriggs.

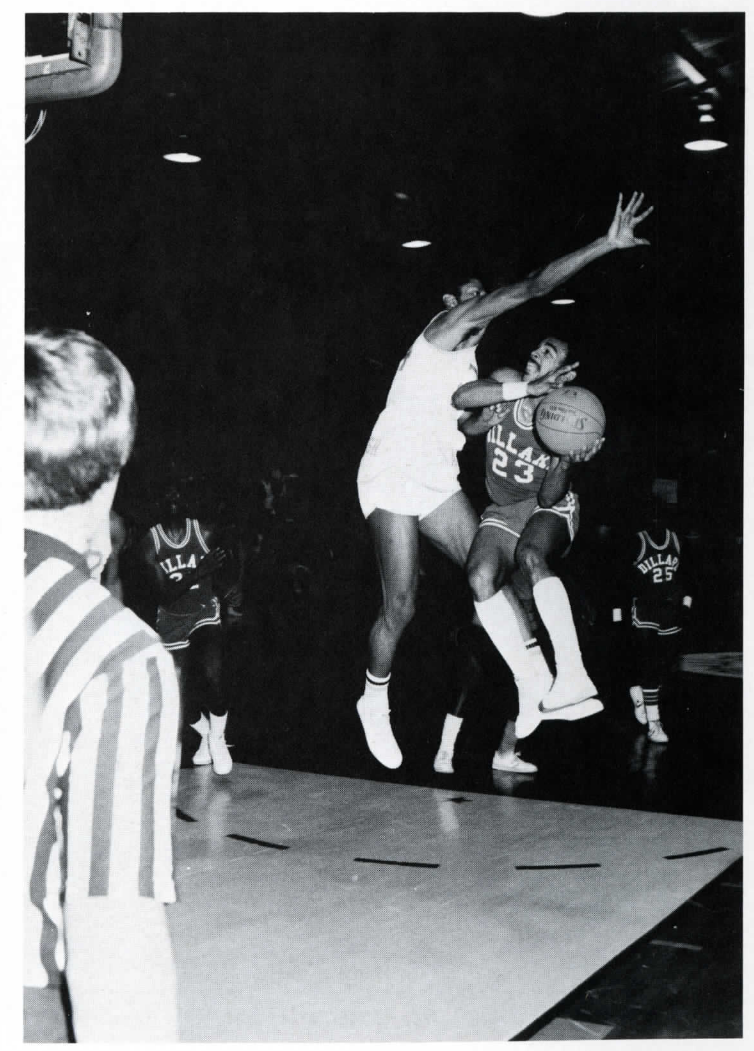

Well Coach Brown, what did it take to capture the NAIA District Championship?

Mmmmmm, I would have to say that it took plenty of..

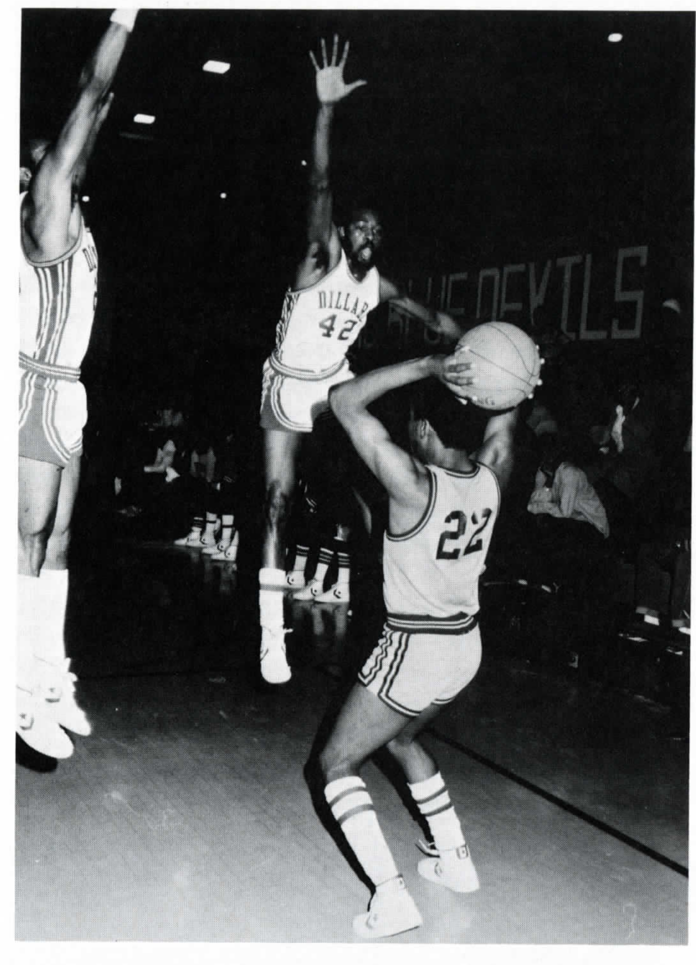

...... DETERMINATION ......

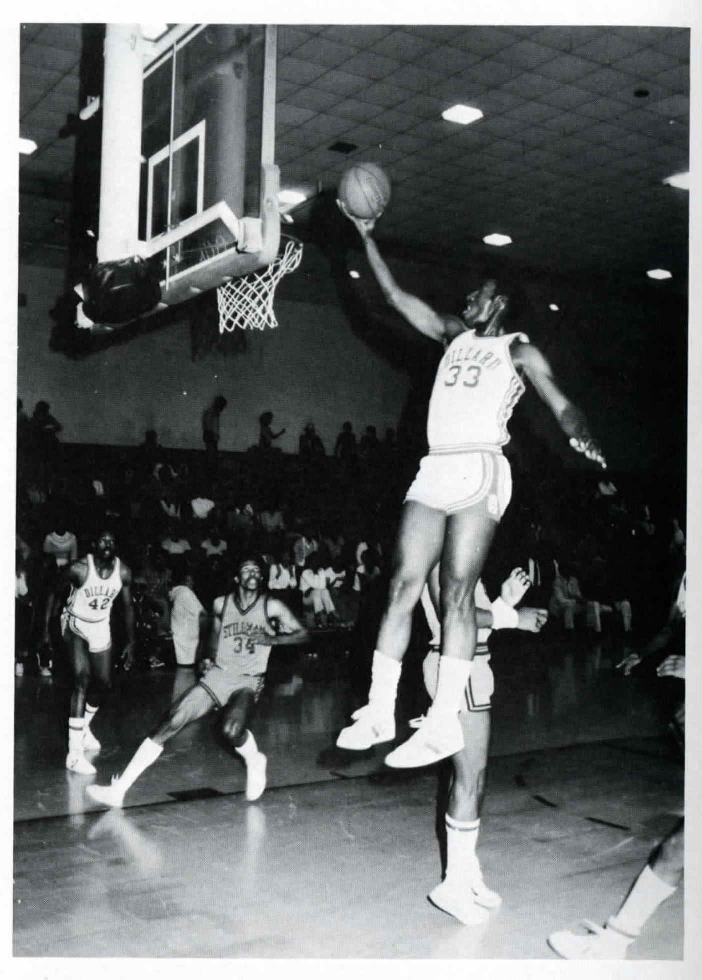

...... PERSISTENCE ......

Photographs/A.G. Tolbert

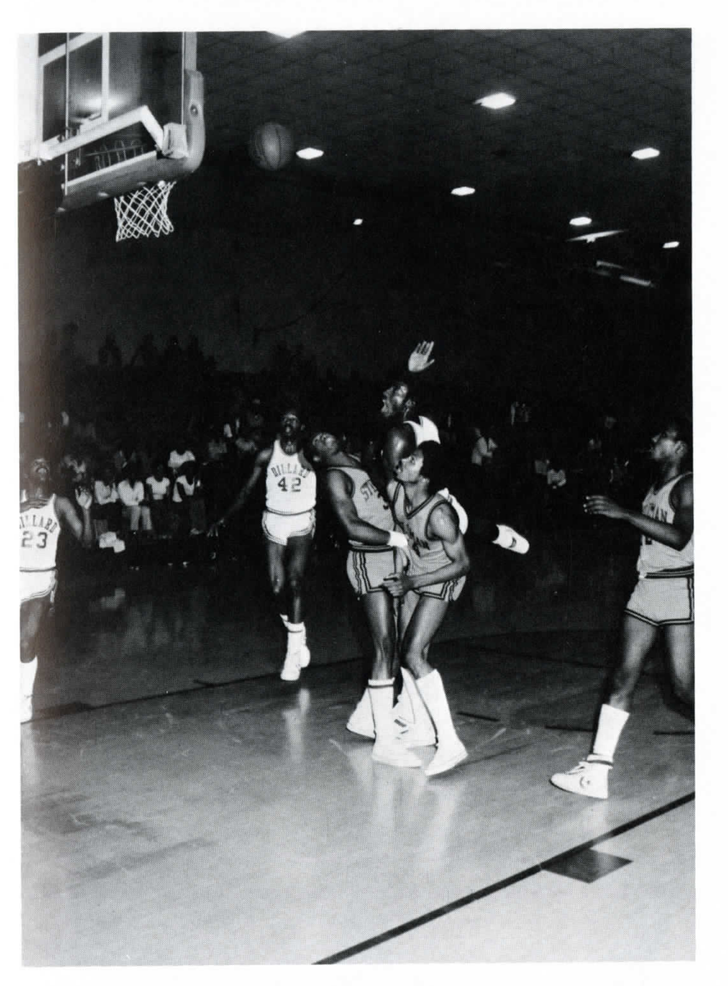

...... TEAMWORK ......

...... CONTROL ......

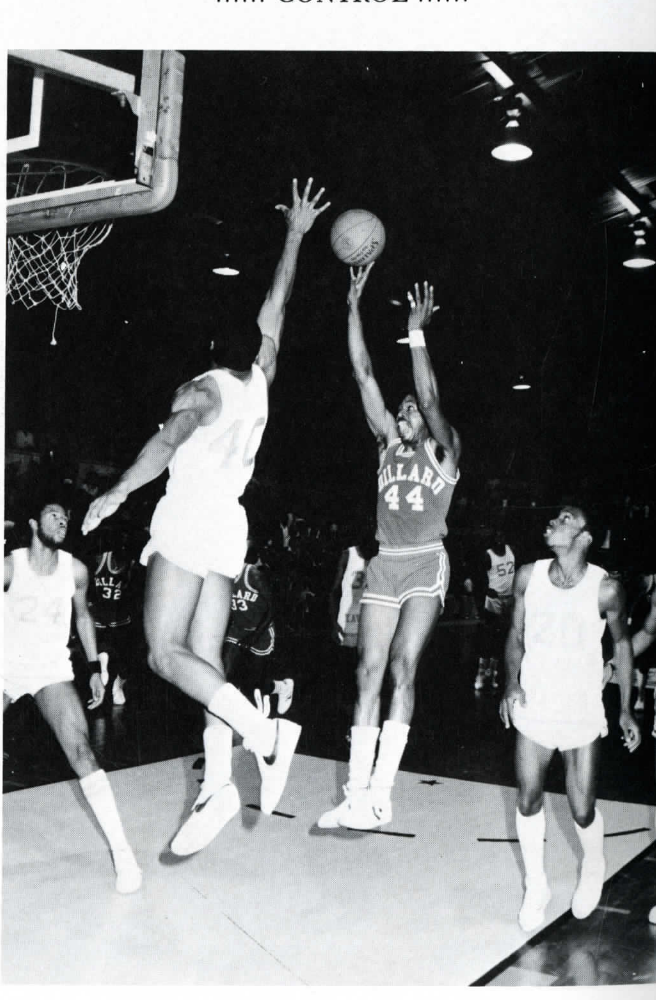

...... ANTICIPATION ......

...... PRIDE ......

...... STRATEGY ......

...... DESIRE ......

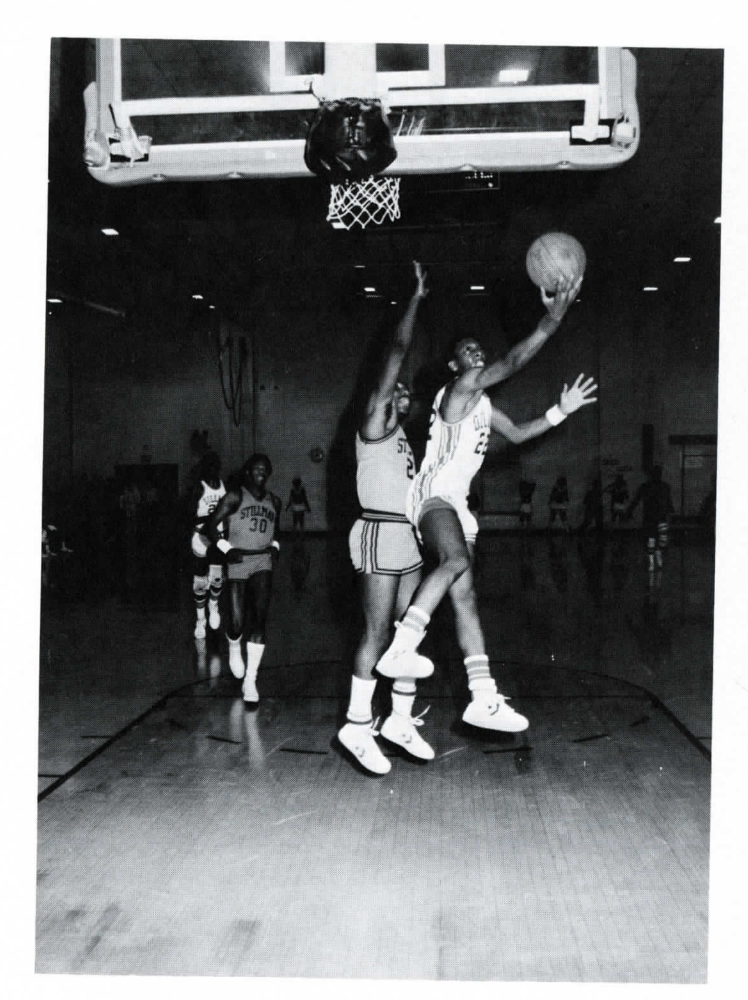

...... and FLEXIBILITY to perform well under last minute changes.

Not to mention, plenty of hard work resulting in . . . .

...... EXPERTISE ......

..... EXPERTISE ......

...... EXPERTISE ......

...... and plenty, plenty, plenty of SUPPORT.

Photographs/A.C. Talbert

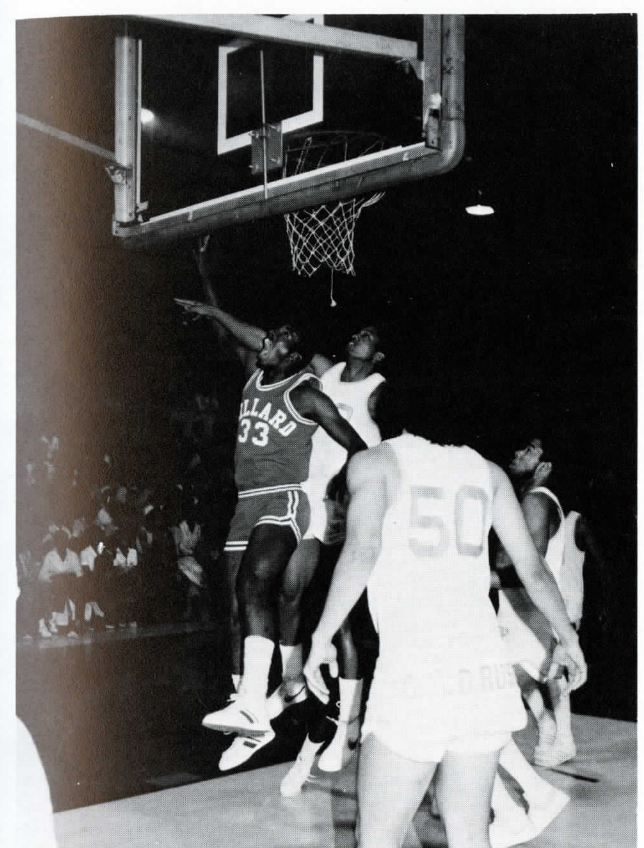

Basically, that's what it took.

A.G. Tolbert

The team receives a personal honor from the University.

A.G. Tolbert

CHARLES HIGHTOWER

Charles Hightower, a 6'6 center/forward senior Business Administration major from Quincy, Florida became the first Dillard Blue Devil to be named to the NAIA All American First Team. Captain of the 1979-80 squad, he has a career average of 23.4 points per game and has a 46.3 field goal average. Hightower also has achieved a 69.1 free throw average and a total of 1266 rebounds for a 12.1 per game average.

According to Coach Brown, "Charles Hightower is without a doubt the best basketball player produced by Dillard. He is not only a top player — he is a gentleman on and off the court and a good student" (Chicago Defender).

Hightower, since his freshman year, started and played in every game. He served as captain since his sophomore year.

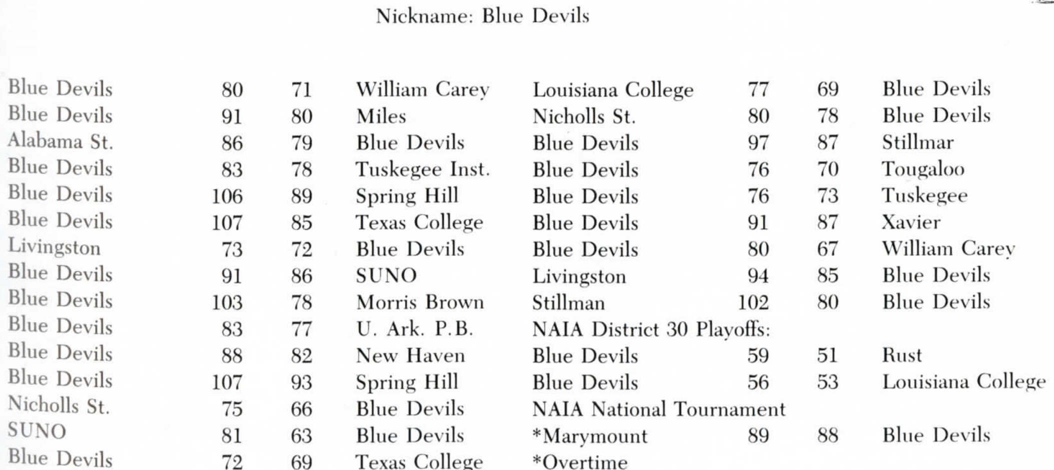

Charles holds several Dillard records, most rebounds in a single game (29 against Southern University of New Orleans on January 21, 1978), most field goals made in a season (341), most points in a season (859), and most career field goals (996). He was named most valuable player of the Alabama State Tournament. He also was chosen the 1980 most valuable player of the Blue Devils. It is said that his player number 33 is to be retired this year. Finally we congradulate Charles Hightower on being drafted to the Atlanta Hawks pro basketball team.

FRESHMEN, "MOVIN' ON"

The Epitome of Academic excellence is typified in the freshman class, not only because of their capabilities and academic pursuits, but because they are now Dillard's youngest man and women branching out to make their best better.

The Class of 1983 has crossed many horizons in making its adjustment into the Dillard family. Finding new ways to study was one of the challenges the freshman class took on this year. The Library was one of the many places the rookies found easy to study in along with the dormitory lounges which proved more inticing with the television set and guests streaming in and out. However, by the end of the school year, the frosh had found many other suitable places.

SOPHOMORES GET INVOLVED

By the second year of school the sophomores began to accept the challenge of increased envolvement in school activities. Being active in the choir, band, S.C.A., pledging sororities and fraternities and working in various departments in the university has enabled the sophs to become more involved than ever.

JUNIORS MOVING ON UP

The Junior year is a time of transition. Juniors find themselves making decisions which will influence the rest of their lives. They all share the excitement and disappointments that "getting ready for the world" will bring. They look forward to their senior year in anticipation of graduation and future plans, be it a job with a prestigious company or on to further their education.

SENIORS GO OUT IN CLASS

Seniors reflect back on the trials and tribulations of three years past. At the end of their junior year, seniors began to contemplate plans for the future. Graduation will be a challenge because it marks the end of many, many years of schooling. However some will go on to higher institutions of education while others will be employed or married.

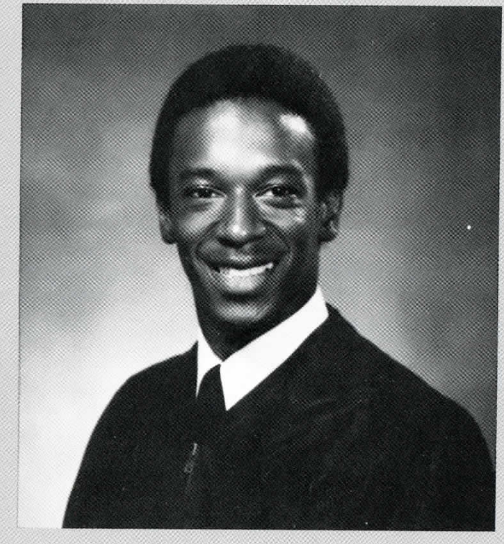

Seniors attempt to do their very best because of graduation requirements and the demands of the job world.

The Class of 1980 can reflect "academic excellence" because they are on the last leg of their academic journey. The nearing termination of four years of preparation proves that their integrity has made the difference. The journey on which they are about to embark will prove successful only if significant use is made of their learning experience.

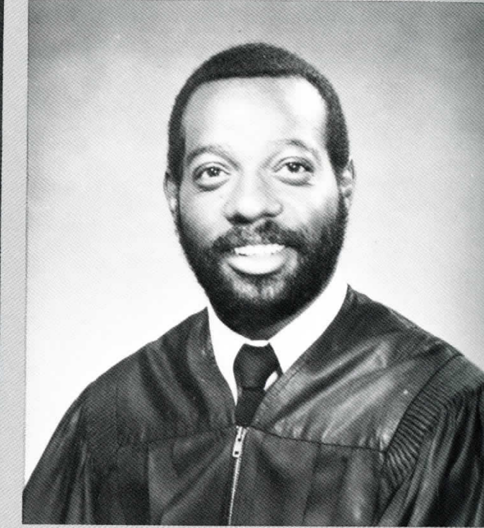

Accomplishing their final goals and striving to do their very best proves that Dillard seniors are STILL BUILDING A PROUD HERITAGE.
